

FOOTPRINTS IN THE SAND

One night I had a dream, I was walking along the beach with the Lord, and across the sky flashed scenes from my life. For each scene I noticed two sets of footprints in the sand; one belonging to me, and the other to the Lord. When the last scene of my life appeared before me, I looked back at the footprints in the sand, and to my surprise, I noticed that many times along the path of my life there was only one set of footprints. And I noticed that it was at the lowest and saddest times in my life. I asked the Lord about it: "Lord, you said that once I decided to follow you, you would walk with me all the way. But I notice that during the most troublesome times in my life, there is only one set of footprints. I don't understand why when I needed you most you would leave me." The Lord replied: "My precious child, I love you and would never leave you. During your time of trial and suffering, when you see only one set of footprints, it was then that I carried you."
